

Two Year Limited Warranty (Valid in USA only)

HoMedics, Inc., guarantees this product free from defects in material and workmanship for a period of two years from the date of purchase, except as noted below.

This HoMedics product warranty does not cover damage caused by misuse or abuse; accident; the attachment of any unauthorized accessory; alteration to the product; or any other conditions whatsoever that are beyond the control of HoMedics. This warranty is effective only if the product is purchased and operated in the USA. A product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications is not covered under warranty. HoMedics shall not be responsible for any type of incidental, consequential or special damages. All implied warranties, including but not limited to those implied warranties of fitness and merchantability, are limited in the total duration of two years from the original purchase date.

To obtain warranty service on your HoMedics product, either hand deliver or mail the unit and your dated sales receipt (as proof of purchase), postpaid, along with check or money order in the amount of \$10.00 payable to HoMedics, Inc. to cover handling.

Upon receipt, HoMedics will repair or replace, as appropriate, your product and return it to you, postpaid. Warranty is solely through HoMedics Service Center. Service of this product by anyone other than HoMedics Service Center voids warranty.

IB-BMAT4

BubbleSpa™ Massaging Bubble Mat

Instruction Manual and Warranty Information

BMAT-4

2 year
limited warranty

Transform your bath into a personal hydro spa.

Thank you for purchasing the BubbleSpa massaging bubble mat, HoMedics refreshing home spa. Like the entire HoMedics line, it is built with high-quality craftsmanship to provide you with years of dependable service. We hope that you'll find it to be the finest product of its kind.

BubbleSpa fills your bathtub with thousands of massaging bubbles designed to relax your mind and revitalize your body in the privacy and comfort of your own home.

Relax. Renew. Enjoy.

IMPORTANT SAFETY INSTRUCTIONS:

When using an electrical appliance, basic precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING

DANGER: To reduce the risk of electric shock:

- Control unit should never be placed in water.
- Always unplug this appliance from the electrical outlet immediately after using and before cleaning.
- Do not reach for an appliance that has fallen into water. Unplug it immediately.
- Do not place or store power unit where it can fall or be pulled into a tub or sink. Do not place in or drop into water or other liquid. Store in dry place.

WARNING: To reduce the risk of burns, fire, electric shock or injury to persons:

- An appliance should never be left unattended when plugged in. Unplug from outlet when not in use and before putting on or taking off parts or attachments.
- Close supervision is necessary when this product is used by, on or near children, invalids or disabled persons.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by HoMedics.

Caution:

Do not allow the control unit to become wet. Only mat and hose should come in contact with water.

Do not obstruct any opening of the control unit.

Please disconnect the mat and hose after use.

The suction cups under the bath mat work perfectly when used on smooth and shiny bathtub surfaces. If your bathtub has a rough or textured surface, take extreme caution when entering the tub in order to avoid slippage and possible danger.

- Do not operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged or dropped into water. Return it to HoMedics Service Center for examination and repair.
- Do not carry this appliance or power unit by supply cord, or use cord as a handle.
- Keep cord away from heated surfaces.
- Do not block the air openings of the appliance or power unit or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep air openings free of lint, hair, dust, etc.
- Do not drop or insert any object into any opening.
- This product is designed for indoor use only.
- Never use this appliance while sleeping or drowsy.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use in outdoor pools.
- To disconnect, turn all controls to the "off" position, then remove plug from outlet.
- This appliance must be connected to 120V electrical supply.

To reduce the risk of electric shock, this appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

SAVE THESE INSTRUCTIONS SPECIAL WARNINGS:

- This unit is not a toy. Children should not use or play with it.
- Always unplug the unit when not in use and when cleaning or moving the unit.
- Ensure that your hands are dry when operating the switch or removing the plug.
- Do not cover unit or power unit with any type of material while it is in operation.
- Do not use if you have sensitive skin areas or poor circulation. Use by unattended children or incapacitated persons may be dangerous.
- Do not use in inflatable tubs or pools.

Caution:
Mat may move
when entering or
exiting bathtub.
Exercise caution.

Medical Precautions

- This unit should not be used in the following cases: Tuberculosis, benign and malignant tumors, hemorrhages, inflammations of the skin, phlebitis and thrombosis, open and fresh wounds, bruises, broken skin or varicose veins, or undetermined calf pain.
- If you intend to use your BubbleSpa for therapeutic purposes, consult your physician first.
- Do not use on any part of the body that is anesthetized.
- Do not use on any part of the body where surgery has been performed.
- Do not use on any unexplained pain before consulting your doctor.
- If you have any concerns regarding your health, consult your doctor before using this product.

BubbleSpa Massaging Bubble Mat Features

- Comfortable air-filled bubble mat contours to any bath surface.
- Variable control to customize relief from gentle bubbles to powerful jet streams
- Lightweight and compact for easy storage and portability

Installation Instructions

1. Remove the mat from its packaging and make sure all necessary components are included: mat, hose suction cup, control unit and hose (Fig. 1).
2. Be sure the control unit is unplugged and positioned on a sturdy surface where it cannot fall or be pulled into the tub, preferably the floor.

Figure 5

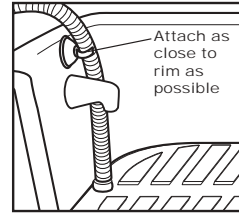

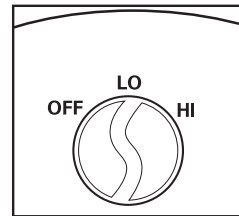

Figure 6

3. To place the mat, first dampen tub surface with a slight amount of water. This will help the adhesion of suction cups (on bottom of mat) to bathtub floor (Fig. 2).
4. To connect the hose to the control unit, line up the arrow on the hose with the unlock mark on the control unit. Insert the hose end (with raised bead) into the control unit and turn counter clockwise to the lock position (Fig. 3). The raised bead should be lined up with channel when inserted.
5. Insert the other end of the hose into the mat (Fig. 4).
6. Attach the hose to the side of the bathtub with the suction cup which is attached to the hose (Fig.5). The suction cup will help to stabilize the hose and should be attached along the upper edge of the bathtub.
7. Plug unit into 120 volt electrical outlet.

Instructions For Use

1. Set the speed control to the desired setting (Fig. 6).
2. After use, turn the control unit off. Drain the tub.
3. To remove any remaining water inside the mat, lift mat, keeping the hose attached and hold at an angle so water collects in the corner (Fig. 7). Turn unit on and blow air through the mat for 30-45 seconds. Towel dry outside of mat.
4. After mat is completely dry you can roll for storage.

Caution:
All servicing of this BubbleSpa must be performed by authorized HoMedics service personnel only.

BubbleSpa Care and Maintenance

Keep the BubbleSpa clean and clear of obstructions. Check the intake area frequently for potential obstructions that could block air or water flow, including lint and hair. Never store your BubbleSpa wet.

Storage

- After use, turn the control unit off. Drain the tub.
- To remove any remaining water inside the mat, lift mat, keeping the hose attached and hold at an angle so water collects in the corner (Fig. 7). Turn unit on and blow air through the mat for 30-45 seconds. Towel dry outside of mat.
- After mat is completely dry, you can roll for storage.

Cleaning

- Unplug the unit and allow it to cool before cleaning. Clean only with a soft, slightly damp sponge.
NOTE: Do not use abrasive cleaners, brushes, gasoline, kerosene, glass/furniture polish or paint thinner to clean.
- Bubble Spa mat should be disinfected periodically to keep it free from bacteria. Disinfect with household cleanser once a week if used several times a week. If used less frequently, disinfect after each use.
- This product is not designed to be used in conjunction with any soaps, gels, shampoos or the like. However, should this occur, follow these next steps to insure the longevity of this product:

1. Disconnect hose from mat
2. Fill mat with fresh water, through hose inlet on mat (Fig. 8).
3. Empty water. Repeat several times until inside residue is removed.
4. Rinse outside of mat and sponge off to make sure all residue is removed.
5. Follow draining instructions as described under the "Storage" section.
